Konya, Turkey (Home)

WORK EXPERIENCE

31/05/2017 – 30/06/2017 Konya, Turkey

ELECTRICAL AND ELECTRONICS ENGINEERING INTERN HARKOM AUTOMATION

It was a mandatory internship to graduate. [Harkom Electric Machinery Automation](https://www.harkom.com.tr/) is an engineering company offering automation and engineering solutions to their customers. During my internship, I learned to build a control panel from scratch. They mostly make packaging machines. These machines require a low fault and error rate. During the time I was there I improved myself in working with sensors and understanding the way they work.

30/09/2020 – 24/11/2021 Konya, Turkey

PLC PROGRAMMER TÜRKÖZ MACHINERY

I started Turkoz Machinery during my last year in college as an intern. After that, we decided to keep working. I was responsible for:

- Creating **Electrical Projects** for the machines we were making such as **Cheese Cooking Tanks, Processing Tanks, Aging Tanks, Factory Scada Systems, and more.**
- Creating **PLC** software for the systems using **Siemens S7, Delta** PLCs, and **Siemens, Beijer** HMIs.
- Creating **SCADA** solutions for the factories.
- Creating **P&ID** solutions.
- Choosing the right **sensors** and making the system work considering the **safety** rules.

For more information about TURKOZ Machinery, you can check out their website [turkoz.com.tr](https://www.turkoz.com.tr)

Business or Sector Manufacturing

17/03/2022 – CURRENT Konya, Turkey

WEBSITE ADMINISTRATOR İPEKYOLU EŞARP

I barcoded all of the physical products and made sure all of them were get pictured. I have uploaded them online and arranged the SEO information, ads, and digital marketing. I made [esarpipekyolu.com](https://www.esarpipekyolu.com) live and working. I have been responsible for managing [esarpipekyolu.com](https://www.esarpipekyolu.com), making banners, being sure everything is working, arranging the orders, and dealing with the clients since the beginning. We also have stores on many other platforms such as [trendyol.com](https://www.trendyol.com), [hepsiburada.com](https://www.hepsiburada.com), and amazon.com. I am also responsible for managing our e-marketing platforms.

01/08/2022 – CURRENT Konya, Turkey

FRONT-END DEVELOPER SELF EMPLOYED

I discovered an interest in website designing during my worktime in İpekyolu Eşarp ([esarpipekyolu.com](https://www.esarpipekyolu.com)). I try to learn how to build a website from scratch. I have made my first website for a Crypto Call Group named Crow Calls ([crowcall.net/](https://www.crowcall.net/)).

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

DIGITAL SKILLS

Web Development

HTML | WebSites | CSS | JS | Safety System

Electrical Engineering

Siemens TiaPortal | Industrial Automation | Machine Assembling | Control Panel | Control panel wiring | HMI

ADDITIONAL INFORMATION

MANAGEMENT AND LEADERSHIP SKILLS

Website Administrator I have been responsible have been responsible with all of the process for online marketing for a while at esarpipekyolu.com. There are two people under me. During this experience I have learned a lot about managing busy times such as Black Friday, cyber-Monday etc.

Since our stock is limited at esarpipekyolu.com I had to make decisions without harming neither the company nor customers. It improved my ability to asses the situation and make a decision. No matter if all my decisions were correct, I believe I could keep the balance and in total I created profit for the company. I also clearly understood that being successful in a business comes from being a team.
